

[illegible]

Fig. 3.

FIG. 4 is a perspective view of the device in a closed position, showing the front panel 28, the side panel 32, the top panel 34, and the bottom panel 36. The device is shown in a closed position, with the front panel 28 and the side panel 32 meeting at the top and bottom edges. The top panel 34 and the bottom panel 36 are also shown in a closed position, meeting at the front and back edges. The device is shown in a perspective view, with the front panel 28 and the side panel 32 being the most prominent features. The top panel 34 and the bottom panel 36 are also shown, but they are less prominent than the front and side panels. The device is shown in a closed position, with the front panel 28 and the side panel 32 meeting at the top and bottom edges. The top panel 34 and the bottom panel 36 are also shown, but they are less prominent than the front and side panels.
